

Bright Start

Vitamin C Brightening Serum 30ml · Spring 2026 campaign

REQUESTOR	Julien Roux — Product Marketing Manager, New Launches	DEPARTMENT	Marketing — Global Launch Team
DATE SUBMITTED	12 Jan 2026	DUE DATE	02 Feb 2026
PRIORITY	Critical — launch-linked	BUDGET	€ 68,000 (creative + initial paid media seeding)
STATUS	Ready for creative production	BRAND	FullCosmetics

1. BACKGROUND & SITUATION

Bright Start introduces our new Vitamin C Brightening Serum to a younger, digitally native audience, expanding FullCosmetics' footprint beyond the core 35-55 skincare buyer. The campaign should communicate energy and freshness while reinforcing scientific credibility. This is a launch campaign, not a brand-awareness one — performance and conversion are the primary success metrics, tracked jointly with the Performance Marketing team.

Competitive context: Ordinary, SkinCeuticals and Glow Recipe currently dominate organic conversation around Vitamin C serums in this demographic. FullCosmetics' differentiator is the dermatologist-approved formulation combined with an accessible price point — both messages must be present in launch creative.

2. CAMPAIGN OBJECTIVE & KPIs

Primary goal: Drive trial and online sales for the new serum launch

Measurable objectives:

- Generate 8,000+ first-purchase conversions in the first 6 weeks post-launch
- Achieve a paid social CTR of 1.8%+ on launch creative
- Secure 25+ micro-influencer placements (10k-100k followers) in the EU market

3. TARGET AUDIENCE

Summary: Women 25-40, urban professionals, skincare enthusiasts

Digitally native, skincare-literate audience active on TikTok and Instagram. They are early adopters within their friend groups, follow ingredient trends closely (vitamin C, niacinamide, retinol cycles), and expect brands to back claims with visible before/after evidence and dermatologist validation. High intent to purchase via direct response ads and influencer seeding.

4. TONE OF VOICE & KEY MESSAGES

Tone of voice: Energetic, fresh, science-backed

Key messages (in priority order):

- 10% pure Vitamin C complex
- Visible radiance in 7 days
- Dermatologist approved

5. CHANNELS & MEDIA CONTEXT

- Paid social (TikTok, Instagram Reels) — primary
- Influencer seeding (managed by Social team, brief sent separately)
- Performance display (Meta, Google Display Network)

6. CREATIVE DELIVERABLES

- 1x hero background visual — empty studio set, brand palette, pack-shot ready
- 1x headline + tagline + supporting copy (EN, to be localized post-approval)
- Formats required: 1080x1350 (Stories/Reels), 1200x628 (paid social feed)

7. MANDATORIES & CONSTRAINTS

- FullCosmetics logo lock-up per brand guidelines v4.2
- 'Dermatologist approved' claim requires substantiation footnote in final asset
- No before/after skin imagery in this phase — visual is background-only

8. CREATIVE NOTES

Palette should lean towards lighter, brighter tones (Blush / Cream / Champagne) to reinforce the 'brightening' positioning. Avoid dark or moody lighting setups used in previous winter campaigns. This brief covers creative production only; influencer and performance media plans are tracked in separate Workfront requests (PRJ-1001-B, PRJ-1001-C).

9. STAKEHOLDERS & SIGN-OFF
